EDUCATION

Bachelor Applied Computer Science
HOGent * 2018-2021

Bachelor Biochemistry - 2 years
University Antwerp / Ghent * 2016 - 2018

SURPY

Personal web application for the Unmatched board game community, featuring statistics, matchup analysis and a live scoreboard used by local tournament players.

VOLUNTEERWORK

Scouts leader for 7 years, including 2 years as group leader, managing volunteers, budgets and organizational planning.

WORK EXPERIENCE

Full-stack developer
Human8 | Sep 2021 - Present

Nolvin AI Research Platform

- Built backend services in C# and .NET powering AI-assisted research workflows.
- Designed document ingestion, vector search and LLM orchestration.
- Developed tools enabling researchers to search large collections of interviews using natural language.
- Built debugging tools explaining AI execution steps.

AI toolkit:

- Built a shared Claude Code plugin marketplace for development, QA and product teams.
- Developed custom AI skills, subagents and Azure DevOps MCP servers.
- Designed AI agents, defining their tools, instructions and delegation strategies.
- Created reusable AI workflows for planning, code reviews and debugging.
- Improved developer productivity by standardizing AI tooling across the engineering team.

TECHNICAL SKILLS

Backend & platform:

C# • .NET • SQL • Python • Node • Bun • REST APIs • Java

Frontend:

Vue 3 • TypeScript • Quasar • Angular • HTML/CSS • Vite

AI & assistants:

Claude Code • MCP servers • Agent Tooling • RAG • LLM Pipelines • Vector Search • vLLM

Cloud:

Azure • Azure DevOps • Git • App Insights
